Responsibilities:

- Interpret blueprints and drawings, and take or read measurements according to plan layout and procedures
- Determine appropriate welding equipment or method based on requirements of the job
- Set up components for welding according to detailed specifications
- Operate angle grinders to prepare parts that must be welded
- Align components using calipers, rulers, clamp pieces and other equipment
- Weld components using manual or semi-automatic welding equipment, completed in various positions (vertical, horizontal or overhead)
- Repair machinery and other components by welding pieces and filling gaps
- Test and inspect welded surfaces and structure to discover flaws
- Help maintain equipment in a condition that does not compromise safety

Qualifications:

- Minimum 1 year of experience as an aluminum welder with appropriate completed apprenticeship
- Experience using a variety of welding equipment and procedures (TIG, MMA etc.)
- Experience in using electrical or manual tools (saws, squares, calipers etc.)
- Ability to read and interpret technical documents and drawings
- Knowledge of relative safety standards and willingness to use protective clothing (face-shield, gloves etc.)
- Knowledge of metallurgy
- Professional Certification (e.g. an AWS welding certificate) a plus

Other Requirements:

- Primary office location is Raleigh, NC
- Up to 50-75% travel required
- Minimum of a high school diploma or GED; community college or technical school a plus

Benefits:

- Flexible work environment
- Paid vacation/holidays
- Group medical/dental benefits
- 3% 401(k) company contribution
- Fast growing company with great potential for career growth
- Support of professional development
